**Subject:** Draft Radiological Scoping Survey for the Parcel F Structures (Finger Piers)

Good afternoon,

This email is sent on behalf of the Navy. You have been selected to receive a document for review from Navy BRAC. The document will be made available by Navy Contractor APTIM using their secure FTP website site. The transmittal includes the Draft Radiological Scoping Survey, Parcel F Structures-Finger Piers, Hunters Point Naval Shipyard, San Francisco, California, dated August 2020, and a Navy cover letter. The Navy is requesting your review by October 12, 2020.

To access the Navy contractor APTIM's secure FTP website, accounts have been set up for each recipient. If the recipient does not have an account, the recipient will receive two (2) emails. If the recipient already has an account, the recipient will receive one (1) email.:

- One email will include the recipient's username and temporary password. (New accounts only).
- A separate email with the subject "New Package Is Waiting" will include the link for the document.
  - If the recipient already has an account, the recipient shall use his/her existing password.
  - If the recipient has a new account, the recipient will follow the link in this email and enter his/her username and temporary password. The system requires a password reset. After resetting the password, the recipient will then be able to download the file.

If you have any questions, please call Sean-Ryan McCray, Navy Project Manager at 619.507.2949. The Navy's contractor is available to reset accounts/passwords. Or, if preferred, the Navy can transmit the document using the safe.apps website.

Thank you

**Lisa Bercik, PE, QSD, QSP**
